

KNOCK-DOWN UNIT

FINALLY!

**A QUALITY
KNOCK-DOWN UNIT
WITHOUT COMPROMISING
PERFORMANCE**

Quality and overcoming space constraints are the reason for Alliance Air Products Custom **Knock-Down** units.

Alliance Air Products Custom Air Handling equipment is available with Partial Assembled Knock-Down or Palletized Knock-Down Construction.

Our units are engineered to cover our customer's requirements of limited or restricted access to the installation site, resulting in eliminating or reducing any building demolition costs.

Existing air handling equipment in need of replacement or upgrading are often located in locations that are difficult to access which in turn makes replacement of the equipment a challenge. Alliance Air Products offers a solution to this problem providing a full Knock-Down Air Handling Unit. The new equipment will provide new HVAC technology with higher efficiency and reliability while eliminating building demolition costs and reducing downtime.

BENEFITS OF ALLIANCE AIR PRODUCTS CUSTOM KNOCK-DOWN UNITS:

- ◆ Same quality as Factory-Built Units
- ◆ Time-Cost Reduction
- ◆ Reduces the need for modifications to the building
- ◆ Able to fit through small openings
- ◆ Factory Supervision and Training available
- ◆ Two types of Units to choose from (Partially Assembled or Palletized)

Our experienced engineering team designs units that can be built on site with the same quality as our factory assembled AHUs. Alliance Air Products Knock-Down Units are delivered on site partially assembled or palletized with full assembly instructions provided. Factory assembly training or assembly supervision assistance is also available.

HAVE MORE ACCESS AND DON'T NEED KNOCK-DOWN CONSTRUCTION?

Ask about our customized split dimensions to see if standard construction is an option for you.
