

Chilled Water Systems

YCWL | Scroll Compressors | 50 – 200 Tons | R-410A | Heat Pump | 3' Wide for Tight Install

YVWA | VSD Screw Compressor | 125 – 300 Tons | R-134a, R-513A | Heat Pump | 10% Turndown

YMC² | Oil Free Magnetic | 165 – 1000 Tons | R-134a, R-513A | 0.1-0.2 kw/ton | Heat Pump

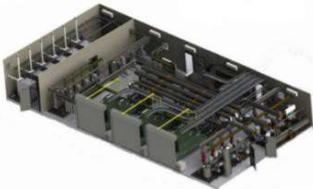

YZ | Oil Free Magnetic | 150-2000 Tons | R-1233zd(e) | Widest Operating Map | GWP = 1

YK | Centrifugal Compressor | 250 – 3000 Tons | R-134a, R-513A | Heat Pump | Connected Chiller

YD, YK-EP, CYK, OM | Up To 6000 Tons | R-134a, R-513A | Heat Pump | District Cooling

YST | Steam Turbine Drive Centrifugal | 700 – 2,800 Tons | CHP, Comfort Cooling, Process Cooling

YHAU / YHAP | Absorption Chillers / Heat Pumps | 30 – 2000 Tons | Hot Water, Steam, Gas, Oil

YLAA | Scroll Compressors | 15 – 230 Tons | R-410a | Heat Recovery | VSD Pump Package

YVAA | VSD Screw Compressor | 150 – 575 Tons | R-134a, R-513A | Industry Leading IPLV

YVFA | Free Cooling VSD Screw Compressor | 150 – 450 Tons | R-134a | Closed and Open Loop

DMV | Modular Chiller | 10 – 15 Ton Modules | Up to 240 Tons | Heat Pump | R-410a

YORK® YMAE Air-to-Water Inverter Scroll Modular Heat Pump: 2-pipe or 4-pipe modular design delivers 140 °F (60 °C) water in capacities exceeding 3,000 MBH (~1,000 kW)

Modular Chiller Plants | "Chiller in a Box" | UL Listed | NEC Code Compliant | Cooling Tower Integration | Boiler Integration | Integrated Pumping Systems | Water Filtration and Treatment Systems | Environmentally Controlled Enclosure | BMS Integration | Seismic Design

Air Handling Units

Intelligent cooling
an ICT Company

Fully Custom Designed and Built AHU
ISO-9000 Certified- Phoenix, AZ

- 200 – 250,000 + CFM
- Fan Array | Energy Recovery | UV / BPI
- Lab Application – High Plume Exhaust
- Evaporative Cooling (Direct & Indirect)
- Custom Rooftop DX Package
- Penthouse Units, Chiller Boxes / Chiller Plants
- Cleanroom / High Filtration Applications
- Data Center Rack Cooling

Semi & Fully Custom AHU – York, PA

- Semi-Custom: 2,000 – 120,000 CFM
 - Indoor & Outdoor Application
- Full Custom: 2,000 – 200,000+ CFM
- Built in the USA
- Fan Array | Energy Recovery | UV / BPI
- Triple Membrane Roof
- Full-Service Vestibule
- Lab Application – High Plume Exhaust
- Cleanroom / High Filtration Application
- OSHPD Seismic Certification

Commerical & Residential Packaged DX & Split Systems

Sunline | 3 – 6 Tons | AC, Gas, Electric, Heat Pump | Smart Equipment Controller

Pro | 3 – 12.5 Tons | Highest Efficiency Up To 21.1 IEER | Dual Circuit Option | Premium Features

Large Sunline | 15 – 25 Tons | AC, Gas, Electric, HP | 4 Circuit Option | High Efficiency Up to 18.0 IEER

Select | 27.5 – 50 Tons | AC, Gas, Electric | Up to 16.0 IEER | Premium Features | Matches Competitive Curb

Series 100 | 50 – 150 Tons | AC, Gas, Electric, Steam, Water | Small Footprint | Double Wall Construction

Core | 3 – 12.5 Tons | AC, Gas, Electric, Heat Pump | Matches Competitive Curbs w/o Adapter Curb

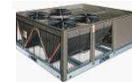

Choice | 15 27.5 Tons | A/C, Gas, Electric | 14.8 IEER | Lightest in Industry | Mod Gas & Exhaust Fan

Millennium | 25 – 40 Tons | AC, Gas, Electric, Water, Steam | Double Wall Construction

Premier | 25 – 80 Tons | AC, Gas, Electric, Steam, Water | Up To 16.7 IEER | ERW | HEPA | Humidifier

Commercial Split | 7.5 – 40 Tons | AC, Heat Pump, Steam, Water | multi-position | 2 & 4 Pipe Configuration

Full Residential Portfolio | 1.5 – 5 Tons | AC, Heat Pump | Air Handler | Gas Furnace | Loose Coils | Packaged | Suitcase Style Condensing Unit | Humidifier.

Variable Refrigerant Flow – Split System

DVM VRF | Up To 40 Tons | Heat Pump & Heat Recovery | 208-460 /3/60 V | Extended Pipe Lengths | OSHPD Certified | Full Range of Indoor Units | Data Storage Backup | Standalone & BMS Controls

DVM Eco | 2, 3, 4.5, 5 Tons | Heat Pump & Heat Recovery | 208-230/60/1 V | OSHPD Certification | Up to 10 Indoor Units | 492' Total Pipe Length, 164' Vertical

DVM S Water Source | Up To 50 Tons | Heat Pump & Heat Recovery | 208-460 /3/60 V | Closed Loop Water or Geothermal Systems | OSHPD Certified | Full Range of Capabilities as DVM VRF

RAC, CAC, FJM | Single & Multi Zone Split Systems | Heat Pump | 9MBH – 48 MBH | 208-230/3/60 V | Wi-Fi Samsung 'Smart Things' Technology | High Efficiency Options

Standalone or BMS Controls | Remote Monitoring | BACnet or Lon Works Gateway | Custom Control Logic | Wi-Fi Adapter for Samsung SmartThings | Wired / Remote T-Stat | 3rd. Party T-Stat Adapter

Dedicated Outside Air Systems

JR Series Unit | 3 – 70 Tons | Up to 18,000 CFM | AC, Gas, Water, Electric, Air Source HP, Water Source HP | Digital and VFD Scroll Compressors | Modulating Hot Gas Reheat | Energy Recovery Module | Double Wall Construction | MERV-14 Filters

Paragon Unit | 5 – 30 Tons | Up to 12,000 CFM | AC, Gas, Electric, Air Source HP | Inverter Scroll Compressors | Modulating Hot Gas Reheat | Energy Recovery Module | Double Wall | MERV 15 & HEPA Filters

iAire's DOAS units can have Solar HVAC installed on them. Solar HVAC makes iAIRE's DOAS product very efficient. RTUS from 3-150 Tons, Split systems 3-80 tons, units are all electric, Heat pump, gas heat or water heat system.

Terminal Unit & Water Source Heat Pump Products

VAV Box

Fan Powered Terminal
